Pedal for Parkinson's is just around the corner, this is one of the biggest fundraisers that Central Illinois Parkinson's Support Group puts on during the year.

Funds raised at this event allow us to do events like the Baseball game and PD Camp and keep the cost down to our members.

Included with this Newsletter is a form for getting donation, please talk to your Family, Friends, Neighbors, Co-Workers or any other people that you can think of.

If you know of a Business or someone that would like to promote a business, please let me know as I'm always looking for sponsors.

Donations can be made at

Ahmad El Kouzi, MD, is an Assistant Professor of Neurology and Movement Disorders at Southern Illinois University School of Medicine. He earned a medical degree from Beirut Arab University in Lebanon and completed a residency in Neurology at Southern Illinois University School of Medicine. He completed fellowship training in Movement Disorders at the University of Florida.

Bill learned he had Parkinson's disease in 2012, after 7 years of misdiagnosis, at the age of 43. Then, shockingly Bill's father Bob was diagnosed with Parkinson's in 2014 and his Paternal grandfather was believed to have it as well.

Bill has found incredible personal success in living well with Parkinson's, by optimizing lifestyle factors, such as exercise intensity,

nutrition, optimism & activism, sleep and social interaction, Bill now dedicates his time to unique campaigns and sharing his experiences.

PEDAL FOR PARKINSON'S

Please sponsor me for my participation in PEDAL FOR PARKINSON'S. I will be riding a stationary bike for 15 minutes _____ or 30 minutes _____
Your support of the event will go a long way towards Parkinson's awareness and working towards finding a cure for this devastating disease.
